

MICKLEHURST ALL SAINTS CE PRIMARY SCHOOL PE PREMIUM STATEMENT 2018/19

During the academic school year of 2018-2019, the school will receive **£17,640** to improve the quality of sport and PE provision and health and wellbeing at Micklehurst All Saints CE Primary School. Our vision is to create a culture that encourages all children to be active and have positive attitudes towards physical activity and healthy lifestyles. The impact of this funding will be measured by school and progress of children will be highlighted.

The funding will develop a programme which includes:

- High quality physical education as part of the curriculum
- Extra-curricular clubs for those wanting to progress skills
- Enough competitive school sport opportunities for those children who want to take part
- Leadership opportunities
- Activities designed to meet the needs of our least active young children through schemes such as Change for Life and Skills to Play clubs.
- A full and varied PE CPD offer to staff
- A comprehensive action plan for all areas of PE & school sport
- Outdoor learning to support mental health and wellbeing

We believe high quality physical education and school sport will contribute to a range of outcomes for our children. Not only does it equip young people with physical literacy while supporting their physical development, movement skills and body confidence, but it also contributes to their physical, mental and social well-being.

More specifically the funding will be predominantly targeted in the following ways:

Subscription to Tameside's Sports Partnership (£1,000) including

Development of competition (school games)

All children enjoy being appropriately challenged and at a young age most are keen to explore their capabilities. At our school, competitive sport will be focussed on achieving one's 'personal best' rather than being the 'best.'

Children currently experience the following competitive sports: Football, Netball, Dance, Volleyball, Tag Rugby, Gymnastics, Hockey, Rounders and Athletics in their PE curriculum lessons. Time will be targeted towards lunch time/after school clubs in some of these competitive sports. Experienced and suitably qualified coaches or existing school staff will enable children to be able to learn more about specific sports, receive age-appropriate coaching and practise their skills.

Children will be also be encouraged to develop their skills in Inter School competition (Level 2) also. An additional **£500** will be allocated to ensure that children can attend competition with other schools. **£80** will be used for our KS 2 children to participate in the Mossley Olympics alongside the other Mossley and Carrbrook schools.

Development of Young Ambassadors (Sport and Health) support and training

We have currently children in Year 5 or 6 who are trained to be Young Ambassadors and Sports Ambassadors who lead games during playtimes and lunchtimes to encourage children to become engaged in physical activity and exercise. This year we will focus on cascading the training to current year 4 children in order to provide further young ambassadors to take the lead from September 2018. We have allocated **£780** to train children in delivering appropriate and challenging 'Wake Up Shake Up' activities and lunchtime activities.

Continual Professional Development of teaching staff.

A proportion of £1,000 for Thameside Sports Partnership subscription includes professional development opportunities for teachers. These opportunities will predominantly be provided through the 'Thameside School Sport Partnership' which will include Management of Subject Leader start and finish groups to address current PE issues. Other support will support the PE subject leader at Micklehurst All Saints CE Primary school and teachers working alongside qualified sports coaches.

Development of Curriculum PE

There will be an investment of **£1,965** spent on developing curriculum PE lessons within EYFS and KS 1. This will be delivered by a bought in professional who will deliver dance lessons to our younger children. Where possible, staff will be involved in the lessons as a CPD opportunity and also to make assessments to show pupil progress. The recommendations of the new National Curriculum guidelines will be adhered to where possible.

Sports Week

£1,000 will be spent on providing children with exciting sporting activities during our Sports week in June where children compete in Sports Day and have the opportunity to experience a range of sports including Archery, Judo, Fencing, Yoga, Skipping etc.

Sports Coaches

Approximately **£4,300** will be spent on sports coaches in school to provide an enhanced sports provision programme. £3,400 is spent on a dance coach for Key stage 2 and an after school dance club. £900 for the cost of an after school sports club.

Additional Swimming Lessons

Swimming as part of the curriculum starts in Year 4, however we have noticed that a high proportion of our Y4 children have not attended swimming lessons outside of school. This means that by Y6 not all children reach the required national curriculum standards. Therefore, we have allocated **£1,490** to provide swimming lessons for Year 3 children in order to give them the opportunity of developing basic skills and water confidence prior to starting lessons in Year 4.

EYFS Mini Bikers Programme

£400 will be allocated to the Mini Bikers programme in EYFS which will provide a fundamental starting point for children's cycling. These sessions will build confidence, spatial awareness and improve dynamic balancing skills, enabling children to cycle without the need of stabilisers.

Activate Programme

£200 has been allocated for the Activate programme which we will run in Y3. This will focus on healthy lifestyles and healthy eating and provide the children with knowledge and understanding to make the right lifestyle choices.

Outdoor Learning Project

£3,900 has been allocated to provide outdoor learning opportunities for our children so that they are able to plant, care, harvest and then eat a range of fruit and vegetables.

Mental Health & Wellbeing

£2,025 is allocated for support for children identified as struggling with mental health issues through providing counselling, therapy sessions or other appropriate activities.

Sustainability & Monitoring

We believe that the spending of our Sports Premium grant is sustainable because:

- The sports coaches will provide children with the skills that can be transferred to a range of sports and activities that can be used throughout their lives.
- After school provision will enable more children to take in competitive sport, giving them a greater understanding of teamwork, drive and belonging that they can apply to various aspects of their future lives.
- The Mini Bikers programme will help develop the children's co-ordination and balance.
- The outdoor learning project will link in with curriculum learning and the Activate healthy eating programme to give children a greater understanding of nutrition and healthy lifestyles as they grow up.
- The Mental Health and Wellbeing support will give children a bank of strategies that they will be able to draw upon when required to help them with their physical and mental wellbeing.
- Being a member of Tameside Sports Partnership will enable the PE lead to gain valuable knowledge and skills to move the subject forward and implement a strong PE culture for years to come.

Impact 2016/17 Funding

Action	Cost	Impact
Subscription to Tameside Sports Partnership	£1000	<p>A greater number of children have represented school in a range of competitions during the year.</p> <p>Enhanced sporting opportunities have been accessed through the partnership e.g. Gymnastics, Lacrosse.</p> <p>Access to CPD for staff (Yoga, Mindfulness) and children (Change for Life Club)</p>
Competition Costs	£500	School has achieved Silver in School Games awards through attendance at a range of competitions.
Mossley Olympic Costs	£80	KS 2 children participated in the Mossley Olympics with other primaries in our MCSP
Development of Dance in EYFS and KS 1	£1,560	EYFS and KS 1 have experienced specialised teaching of Dance.
Costs of professionals during Sports Week	£500	Children participated in a range of sporting opportunities that they may not experience otherwise.
Sports coaches to develop enhanced Sports Provision Programme	£4,203	Additional after school sports clubs have taken place and been well

		attended by children. Sports coaches have provided CPD for staff and enhanced opportunities for children in terms of a wider range of sports.
Purchase of Resources for sports	£883	New resources have been purchased to support the teaching of PE/Sport.
